Welcome

Thank you for your interest in Donegal ETB's adult education courses and a very warm welcome to our new prospectus for 2014. This prospectus is your starting point for all our courses whether you are returning to learning for the first time since leaving school or planning further studies with us.

Donegal ETB is the largest provider of adult education in the County and is funded by the Department of Education and Skills through SOLAS, the new further Education and Training Authority. As you will see in this prospectus, we offer a huge range of courses from part-time learning courses for those wishing to brush up on their essential skills, through to those wishing to study full-time for a course that can lead onto higher education, training and employment.

We are very proud of our reputation for excellence, quality and student support and the achievement of our students as they progress through our programmes and beyond to further and higher opportunities. It is extremely important to us that every student has the opportunity to enjoy their learning and has every opportunity to excel in their chosen field of study. This prospectus is organised in such a way as to help you find the courses that interests you most and to give you relevant information on studying with us and making your decision. If you have any questions or require further information then the designated member of staff for your course will be only too happy to help you.

I wish you every success in your decision making and look forward to meeting you at your graduation if you decide to study with us.

Shaun Purcell
Chief Executive Officer

Why Study with Donegal ETB?

Donegal ETB is renowned throughout the county for the excellence and quality of its courses. Making the decision to study with us will start you on a journey of personal discovery that will both improve your confidence and skills and prepare you for further study or employment. All our courses are accredited by the Further Education and Training Awards Council (FETAC) and we hold designated FETAC provider status which means that we are able to quality assure our own courses and thereby ensure you have an excellent learning experience.

Donegal ETB has been the cornerstone of vocational education in the County since 1905 and has driven the rapid expansion of adult education opportunities following the publication of the White Paper on Adult Education in 2000. As a result of this commitment, Donegal ETB has established a comprehensive network of programmes and centres throughout the County that has made adult education accessible to all. In fact an average of 12,000 adults choose to study with us every year.

This prospectus is arranged by area of interest to make it easy for you to find the courses that are right for you. Courses are colour coded by area of learning.

Crona Gallagher and Martin Gormley
Adult Education Officers

ADULT EDUCATION PROGRAMMES

Learning for Living

The Learning for Living programme offers tuition to adults who are unsure of their skills and knowledge in reading, writing, spelling, maths, numbers and computers. The programme offers learning that is tailored to the needs of each student in a supportive and friendly environment. Time is given to acquire skills and tutors are aware that progress is often made in small stages. The programme also offers a range of family learning options in partnership with schools and provides English language training for speakers of other languages. Students can choose to accredit their study with FETAC Major and Minor Awards offered from Level 1 to Level 4 and State Examination Commission (SEC) examinations. Courses are free to all adults.

Youthreach Programme

Youthreach is the Department of Education and Skills official education, training and work experience programme for young people who have left school early. The programme aims to develop the core skills needed for further learning and to prepare young people to progress to further education/training or to employment. Youthreach is open to young people aged 15-21 who have left school early and have few or no qualifications. Youthreach offers both uncertified and certified courses at FETAC Levels 2, 3 and 4, Leaving Certificate Applied (Letterkenny only), ECDL and Safe Pass amongst others in a range of subject areas which vary from centre to centre.

Back to Education Initiative (BTEI)

BTEI offers education options for those 18 or over and who interested in part-time study. Courses are free of charge to any adult with less than upper second level education (Leaving Certificate) and those in

receipt of a social welfare payment or medical card and their dependents. Fees will apply to other applicants. BTEI offers Major and Minor FETAC Awards at Levels 3 to 5 running from 6 months to 2 years depending on the course. Courses are offered throughout the Adult Education Training Centres and in conjunction with the Community Education Programme in the community.

Community Education

The Community Education Programme supports the delivery of adult education courses in the community through provision of funding for tuition costs and support in the setting up of courses. By its nature, community education provision is driven by the needs of the community and organised locally. This 'bottom up' approach ensures that adult education in a community setting is always addressing the educational needs of the local community. The Community Education Programme funds a wide range of courses from short courses and evening classes to Major FETAC Awards. The community education courses detailed in this brochure focus on the longer accredited courses; details of all the courses in your area funded through the Community Education Programme can be found through your local community group or by contacting Maeve McGarvey, Tel: 074 9725520.

Vocational Training Opportunities Scheme (VTOS)

VTOS is a specific training programme for those aged 21 or over and who have been on Jobseekers Allowance for 6 months or more. VTOS is a full-time programme and offers Major Award courses at FETAC Levels 4 and 5 over two years through the Adult Education and Training Centres.

VTOS courses are focused on developing the skills and competencies required by employers and a significant proportion of the course is devoted to work experience.

Post-Leaving Certificate (PLC) Programme

The PLC Programme courses are intensive, full-time, one year programmes that prepare students for entry level employment or progression to further study. Successful students may apply to third level programmes at Institutes of Technology and University through the Higher Education Links Scheme. Courses are designed as an ideal progression from Leaving Certificate for those who want an extra year to study a specific vocational area and for adults returning to education. Courses are offered at many of the second level schools managed by Donegal ETB.

Gartan Outdoor Education Centre

Gartan is the 'Jewel in the Crown' of Donegal ETB's education provision. Set in 87 acres of stunning lake side scenery on the edge of Glenveagh National Park, Gartan offers courses in outdoor sports, adventure training, environmental education and sustainability for young people and adults. Courses range from a one day introduction to professionally accredited training and programmes can be tailored to meet the specific needs of an individual or group.

Please note that all courses offered by Donegal ETB requiring work experience with children or vulnerable adults will require students to be Garda vetted.

NATIONAL FRAMEWORK OF QUALIFICATIONS

The National Framework of Qualifications (NFQ) has been designed to allow learners to compare and classify qualifications across ten levels ranging from the very initial stages of learning to the most advanced stages. Each level is based on nationally agreed standards of what an individual is expected to know, understand and be able to do following successful completion of a programme of learning.

An awarding body is a national body that has the authority to award you a qualification in order to recognise your learning. There are a number of national awarding bodies that have their awards included in the NFQ such as FETAC and the State Examination Commission (SEC) which accredits the Junior and Leaving Certificate. Professional bodies and national bodies in the UK have also been included in the NFQ.

At each level of the NFQ there is at least one of the following award types:

Major Award – the main class of award made at each level which entails significant learning e.g. the Junior/Leaving Certificate, FETAC Certificate and Degree

Minor Award – provides recognition for learners who achieve a range of learning outcomes but not the specific learning outcomes required for a Major Award. These awards allow learners to build up units of learning at their own pace. These units of learning are called Component Certificates

Special Purpose Award – provides recognition for a specific purpose e.g. Safe Pass certification for health and safety in the construction industry

Supplementary Award – for learning which is additional to a previous award and are used for updating specific skills and for professional development

The NFQ can help you make informed decisions about which level of course is appropriate for you and to make it easier for you to explain the qualifications you hold and those you are studying for. This becomes very important when you are considering further learning or entering employment both here in Ireland and abroad.

QQI, FETAC AND HETAC

Quality and Qualifications Ireland (QQI) was established in 2012 as a new integrated agency responsible for the external quality assurance of further and higher education and training and validates programmes and makes awards for certain providers in these sectors. QQI is also responsible for the maintenance, development and review of the National Framework of Qualifications.

QQI has replaced the Further Education and Training Awards Council (FETAC) as the national awarding body for further education and training and over time will validate new further education awards. FETAC awards will continue to be validated under QQI until the transition process is completed. FETAC awards are offered at NFQ Levels 1 to 6.

QQI has also replaced the Higher Education and Training Awards Council (HETAC) as the national awarding body for higher education and training. HETAC awards will continue to be offered at Levels 6 to 10 on the NFQ until the transition is completed. Institutes of Technology have delegated authority from HETAC to make their own awards at Levels 6 to 10.

KEY

- FETAC - Further Education and Training Awards Council
- SEC - State Examinations Commission (Department of Education & Science)
- HETAC - Higher Education and Training Awards Council
- DIT - Dublin Institute of Technology
- Universities

AWARDS IN THE FRAMEWORK

There are four types of award in the National Framework of Qualifications:

- Major Awards: are the principal class of awards made at a level
- ▲ Minor Awards: are for partial completion of the outcomes for a Major Award
- Supplemental Awards: are for learning that is additional to a Major Award
- ◆ Special Purpose Awards: are for relatively narrow or purpose-specific achievement

Awards offered by Donegal ETB

FETAC is the main awarding body for courses accredited by Donegal ETB. As the statutory provider of adult education in Donegal, we offer Major and Minor FETAC awards at Levels 1 to 6 on the NFQ. Qualifications from other awarding bodies are sometimes offered depending on the course.

In the list of courses offered by Donegal ETB you will see Minor and Major awards mentioned in the course description.

- A Minor Award can include 1 to 7 Component Certificates at that level.
- A Major Award must include 8 Component Certificates at that level. In certain cases two Component Certificates at one level below the level of the Major

Award can be used for accreditation purposes e.g. two Level 4 Component Certificates can be combined to give one Level 5 Component Certificate in order to complete the Major Award.

Deciding what course is right for you

Donegal Adult Learner Guidance Service –

The Guidance Service offers impartial and confidential information, advice, guidance and counselling on the educational options that are available to you both within Donegal ETB and with other education providers. The aim of the service is to support you to make the right decisions about returning to education and training and to help you make those decisions within the context of your wider life. If you are unsure about

what course to do or need help in finding out which level is most appropriate for you then please call us on 074 9178088.

Online Guidance Tools –

For those who prefer to do their own research on the options that may be open to them, the following websites may prove useful:

www.qualifax.ie – national database of further and higher education courses provided by the Department of Education and Skills.

www.careersportal.ie – an online careers and course database with a useful interest profiler to help you match your interests with course areas and a database of career information.

Entry requirements

There are no formal qualification requirements for Donegal ETB adult education courses. Applicants will be interviewed and be asked to show their understanding of the course, their motivation for applying and their ability to manage the course requirements. Donegal ETB is aware of the importance of adults choosing the right course and at the right level. If during the interviewing stage we feel that the course is not right for you we will refer to Donegal Adult Learner Guidance Service who will help you look at your options. The following programmes have specific entry criteria:

Youthreach

Youthreach is open to young people aged 15-21 who have left school early and have few or no qualifications.

VTOS

To qualify for VTOS, applicants must be at least 21 years of age at the start of the course and be in receipt of a qualifying social welfare benefit or signing for credits for at least 156 days.

BTEI

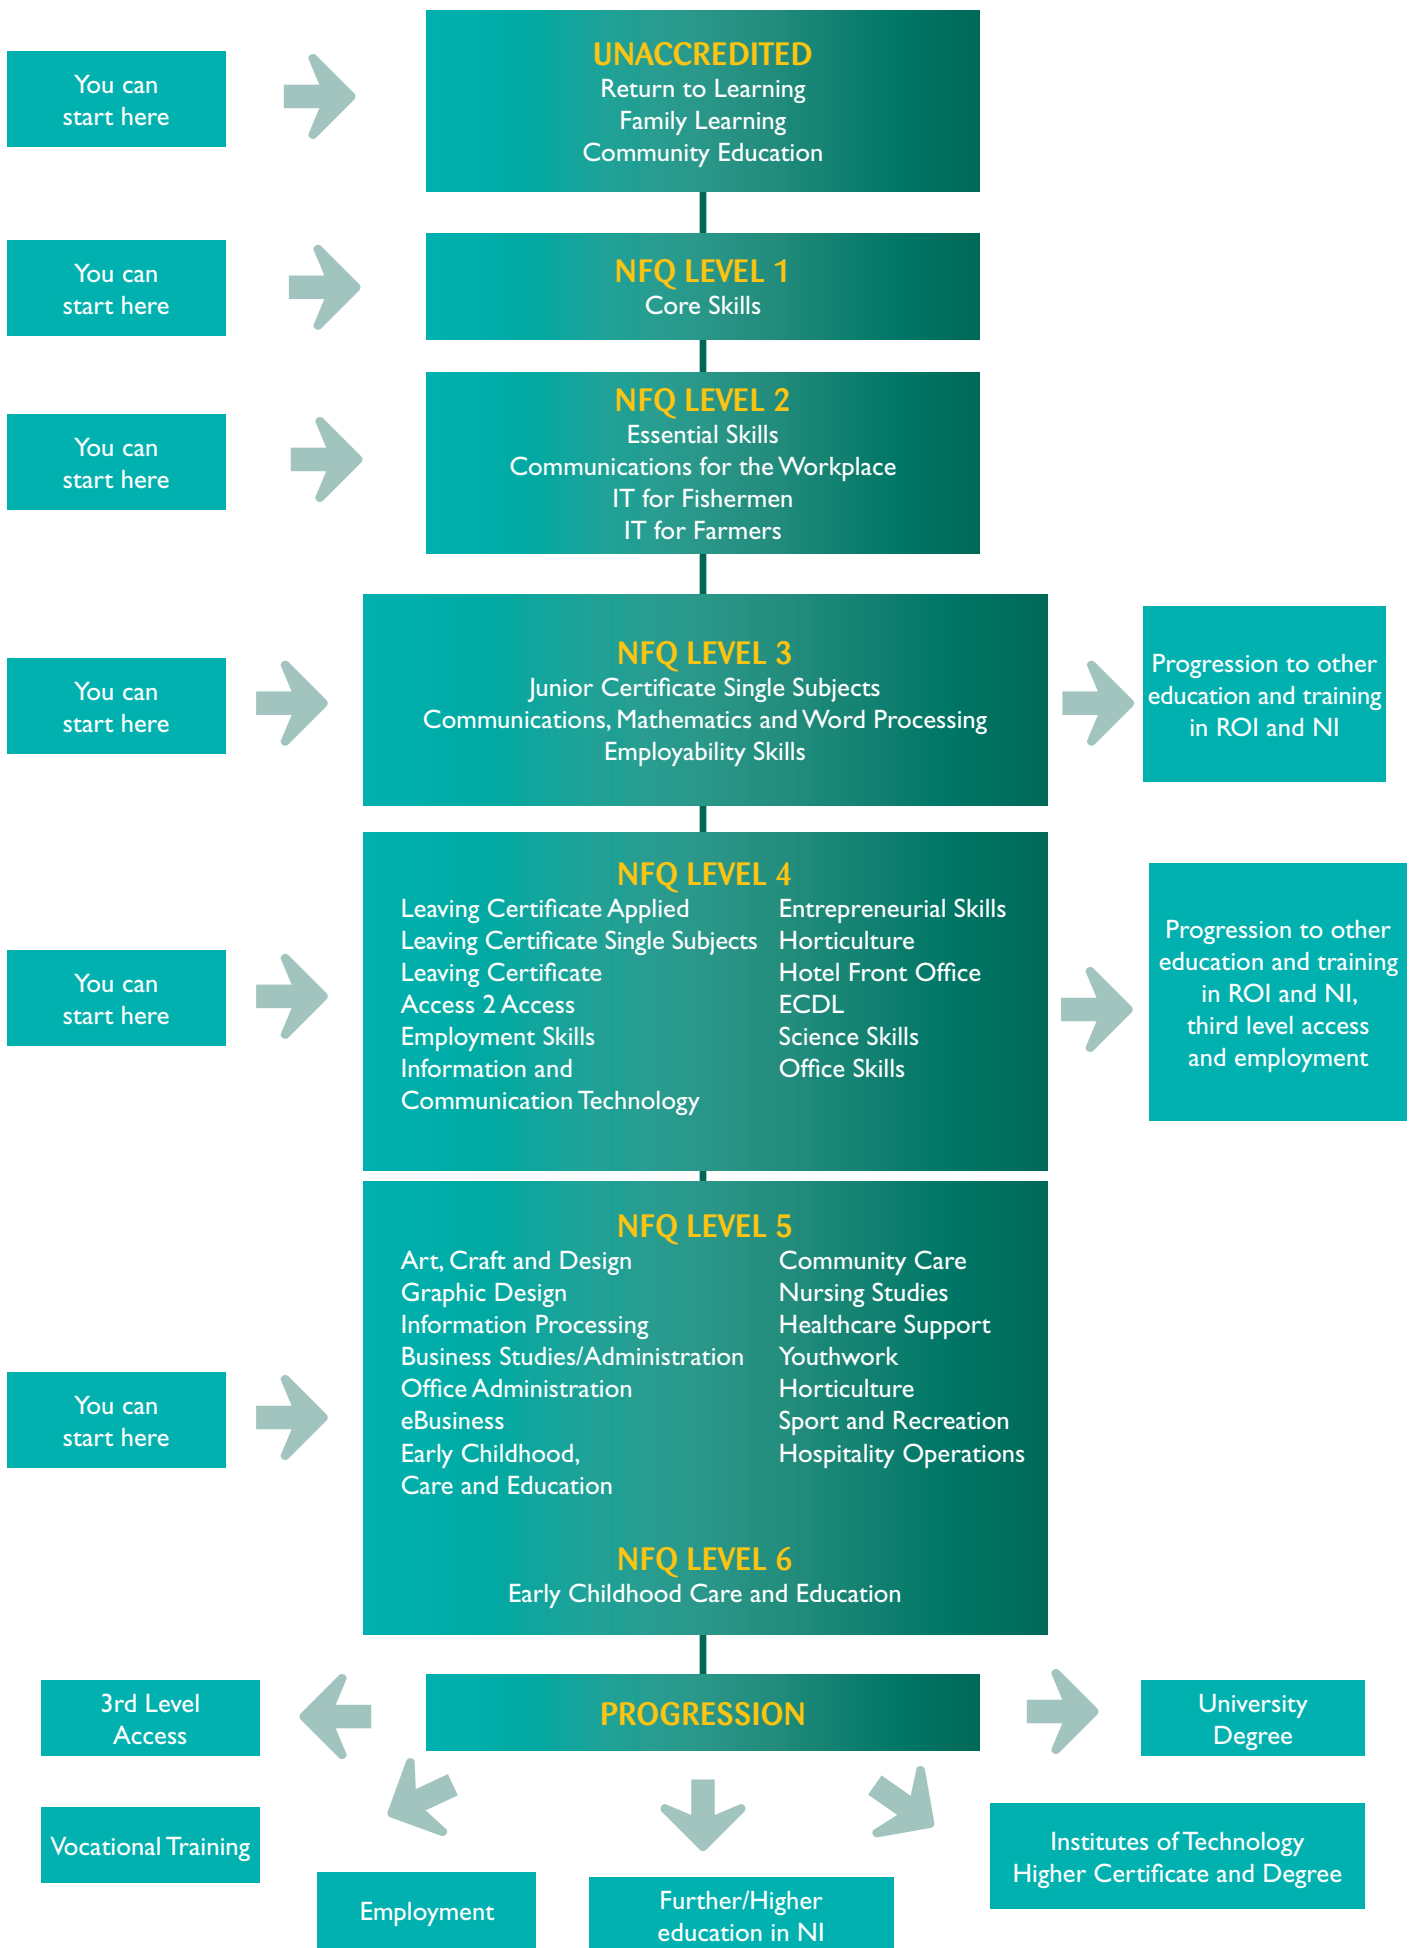

Courses are free of charge to any adult with less than upper second level education and those in receipt of a qualifying social welfare payment or medical card and their dependents. Fees will apply to other applicants.

PLC

PLC courses are one year intensive Level 5 programmes delivered in several second level schools in the county. A course fee of €200 applies which is waived for those with a medical card or are in receipt of the Back to Education Allowance or VTOS allowance.

How to apply for a course

Applying for a course with Donegal ETB is simple - just get in touch with the appropriate contact number detailed in the course information and they will send out an application form and answer any questions you may have. If you have any difficulty contacting the relevant person then please contact Donegal Adult Learner Guidance Service in Letterkenny, Tel: 074 9178088 or Donegal Town, Tel: 074 9725520.

CORE SKILLS, LANGUAGE AND GENERAL STUDIES
